

Friday 12th June

Rapha was 4 yesterday and we had pizza for tea which is one of his favourites. Pizza comes from Italy and the first ever pizza only had 3 ingredients on it, can you find out what they were.

English

What might the people on board see? Why might people want to travel on the boat? Can you write a leaflet or poster persuading people to take a tour on the boat?

Maths

Today can you go for a walk and look for numbers in the environment, e.g. on car registrations, houses, road signs. Jot down the numbers then when you get home see how many addition +, or subtraction - number sentences you can make with your numbers.

Have a lovely weekend. Take care
