

## Finding the Whole from a Fraction of an Amount

The number in each section corresponds to a question on the following pages. For each question, find the whole value (original amount) from the fraction of the amount given. Then, use the key to find out which colour to shade that section.

**Orange**

0 to 10

**White**

11 to 20

**Light Blue**

21 to 30

**Dark Blue**

31 to 40

**Green**

41 to 50

**Light Green**

More than 50

## Finding the Whole from a Fraction of an Amount

Questions	
1.	$\frac{1}{2}$ of the number is 15. What is the original number?
2.	$\frac{1}{2}$ of the number is 4. What is the original number?
3.	$\frac{1}{4}$ of the number is 6. What is the original number?
4.	$\frac{2}{3}$ of the number is 12. What is the original number?
5.	$\frac{2}{5}$ of the number is 22. What is the original number?
6.	$\frac{1}{4}$ of the number is 7. What is the original number?
7.	$\frac{1}{5}$ of the number is 7.2. What is the original number?
8.	$\frac{3}{4}$ of the number is 7.5. What is the original number?
9.	$\frac{7}{10}$ of the number is 11.9. What is the original number?
10.	$\frac{1}{4}$ of the number is 12. What is the original number?
11.	$\frac{1}{2}$ of the number is 8. What is the original number?
12.	$\frac{3}{4}$ of the number is 19.5. What is the original number?

13.	$\frac{1}{3}$ of the number is 5. What is the original number?
14.	$\frac{1}{4}$ of the number is 2. What is the original number?
15.	$\frac{3}{10}$ of the number is 15.6. What is the original number?
16.	$\frac{3}{4}$ of the number is 33.75. What is the original number?
17.	$\frac{3}{4}$ of the number is 27. What is the original number?
18.	$\frac{3}{8}$ of the number is 9.375. What is the original number?
19.	$\frac{5}{8}$ of the number is 6.25. What is the original number?
20.	$\frac{1}{2}$ of the number is 10. What is the original number?
21.	$\frac{1}{4}$ of the number is 3. What is the original number?
22.	$\frac{2}{5}$ of the number is 10. What is the original number?
23.	$\frac{1}{2}$ of the number is 16. What is the original number?
24.	$\frac{11}{20}$ of the number is 5.5. What is the original number?
25.	$\frac{1}{2}$ of the number is 2. What is the original number?

## Finding the Whole from a Fraction of an Amount

26.	$\frac{5}{6}$ of the number is 20. What is the original number?
27.	$\frac{2}{7}$ of the number is 8. What is the original number?
28.	$\frac{3}{4}$ of the number is 12. What is the original number?
29.	$\frac{3}{8}$ of the number is 6.75. What is the original number?
30.	$\frac{3}{4}$ of the number is 4.5. What is the original number?
31.	$\frac{1}{12}$ of the number is 1.5. What is the original number?
32.	$\frac{3}{10}$ of the number is 14.7. What is the original number?
33.	$\frac{4}{5}$ of the number is 36. What is the original number?
34.	$\frac{9}{10}$ of the number is 26.1. What is the original number?
35.	$\frac{2}{7}$ of the number is 4. What is the original number?
36.	$\frac{1}{4}$ of the number is 5. What is the original number?
37.	$\frac{1}{6}$ of the number is 9. What is the original number?
38.	$\frac{1}{5}$ of the number is 2.4. What is the original number?

39.	$\frac{1}{2}$ of the number is 3. What is the original number?
40.	$\frac{5}{7}$ of the number is 30. What is the original number?
41.	$\frac{3}{5}$ of the number is 9.6. What is the original number?
42.	$\frac{17}{50}$ of the number is 3.4. What is the original number?
43.	$\frac{1}{20}$ of the number is 2.1. What is the original number?
44.	$\frac{2}{3}$ of the number is 38. What is the original number?
45.	$\frac{1}{4}$ of the number is 1. What is the original number?
46.	$\frac{4}{5}$ of the number is 12. What is the original number?
47.	$\frac{2}{100}$ of the number is 0.2. What is the original number?
48.	$\frac{1}{4}$ of the number is 2.25. What is the original number?
49.	$\frac{2}{5}$ of the number is 19.2. What is the original number?
50.	$\frac{3}{20}$ of the number is 2.85. What is the original number?
51.	$\frac{3}{4}$ of the number is 18.75. What is the original number?

## Finding the Whole from a Fraction of an Amount **Answers**

The number in each section corresponds to a question on the following pages. For each question, find the whole value (original amount) from the fraction of the amount given. Then, use the key to find out which colour to shade that section.

	<b>Orange</b>
	0 to 10
	<b>White</b>
	11 to 20
	<b>Light Blue</b>
	21 to 30
	<b>Dark Blue</b>
	31 to 40
	<b>Green</b>
	41 to 50
	<b>Light Green</b>
	More than 50
