Maths

Here are yesterdays answers.

1. $32 - 12 = 20$
2. $14 - 4 = 10$
3. $18 - 10 = 8$
4. $21 - 10 = 11$
5. $25 - 14 = 11$
6. $43 - 41 = 2$
7. $34 - 20 = 14$
8. $51 - 41 = 10$
9. $65 - 30 = 35$
10. $49 - 40 = 9$

The next set you will need to exchange from the tens. So when you take the ones, you will need to exchange from the tens column, don't forget to cross off the tens number and write how many are left. For the first one, we cannot take 7 away from 4 so borrow a ten from the 3, cross it off and write two. Now you can take the ones away

1. $34 - 17 =$
2. $65 - 26 =$
3. $24 - 18 =$
4. $36 - 17 =$
5. $48 - 19 =$
6. $24 - 18 =$
7. $28 - 19 =$
8. $23 - 17 =$
9. $45 - 36 =$

**** Challenge **** $99 - 10 - 13 =$

English

Yesterday we looked at using apostrophes for contraction, today we are going back over how to use apostrophes for possession, remember that this tells us what belongs to who.

<https://www.youtube.com/watch?v=6Qmy42V1ujo>

Bellas ball = Bella's ball

Bens dog =

Freds horse =

Dans bed =

Samuels car =

Jons pencil =

**** Challenge**** Write some sentences using these or your own possessive apostrophes.
