

Friday 5<sup>th</sup> June 2020

Happy Friday Everybody,

When I was little we used to go and do our shopping at the supermarket on a Friday. I would like you to make your own shop today. Decide what kind of shop you would like to run. It could be a food, shoe, toy or sweet shop or any kind of shop you like. Put all the things you want to sell together and then label how much everything will cost. Ask your grown-up if you can raid their purse or wallet so you have real money to play with. Then take it in turns to be shop keepers and customers. Look at the money you are using and talk about how much each coin or note is worth. Think about which is the greatest and smallest amount. Have fun!

Now go to <https://whiterosemaths.com/homelearning/early-years/> and choose Summer Term Week 6, Day 5 activity. Today you are going to be thinking about whether the snail is higher or lower than the worm.

Do you remember your 3D shape song from yesterday? Here it is again to help you. I would like you to go on a 3D shape hunt around your house. Find a 3D shape and tell your grown-up what they are called. Top tip-look in the kitchen as there will be lots in there! Try and find more than your grown-up!

Have a lovely weekend and we will see you all next week

Mrs Allen, Mrs Beulah and Mrs Parry
