

Monday 27th April

It is almost the end of April; do you know which month comes next? At the end of the week you will need some boxes to do junk modelling so get collecting now. Don't worry if you haven't got any Sellotape or glue you can still make your model!

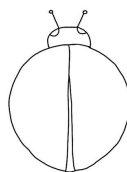

English

Look carefully at this picture, can you see if you can find out what sort of dog it is, write it in your book? Can you give the dog a name, remember that names have capital letters? Now can you write a sentence about where you think the dog is.

Maths

In your books, can you draw a ladybird outline

If you have counters, buttons or small coins can you get them out, if not you can draw the dots on your ladybird as you go along, you will need to draw more than one ladybird though. If you have a dice can you roll it and put that number of counting objects or dots on one side of the body, now repeat that activity. How many dots have you got altogether? Can you record the calculation? Which side has more, less or is it the same. Can you repeat the activity again?

If you don't have a dice just get your adult to tell you a number between 1 and 6.
