

Thursday 7th May

I love lots of different types of weather as I am an outside type of person. I enjoy walking in the rain, I love skiing in the snow and I really like sitting on a beach in the sunshine. This is the last day of our learning this week. See if you can find out why we are having a bank holiday tomorrow?

English

Captain Tom decided to walk 100 times around his garden to raise money for the NHS. What would you like to do to raise money and who would you raise it for? Write your ideas down in a list or in sentences.

Maths

Can you draw a rainbow like the one above and then write your number bonds to 10 in the different colours of the rainbow.

Have a fun 3 days off from learning, remember to keep exercising as when we are back at school we want to be able to do Joe Wicks before lunch just like we used to.
