

Wednesday 13th May

It was sung by someone called Vera Lynn. She has a title can you find out what it is?

English

As I said on Monday lots of children had to be evacuated in the war. They could write home to their families. Can you write a postcard, imagine you were living on a farm without your family? What would you say to them? Remember to use capital letters for names and places. You could write on one half of the postcard and draw a picture on the other.

Maths

If you have bricks or Lego or Duplo can you build a tower of 10 or 20, if you want a challenge, and then ask your grown up to give you a number smaller than 10 or 20. Take off that number of bricks and then write down the calculation. Remember each calculation will start with 10 or 20.

I am sure you are all feeling like you really miss school and your friends. I miss seeing all of you, but if you try and do your learning then it helps us to think of each other doing the same activities each day as if we were at school.

Remember to also get outside and do some exercise. We will need to carry on walking a mile when we do get back to school.
