

## Project Learning at Home

### Title: Our Wonderful World

Who is this learning for?

KS1 - Year 1 and 2

What will you learn?

You will learn about the continents. This week is about Antarctica.

Click [here](#) to use this resource or do your own research using books and the internet.

### Here are some things you could try...

When we went to Tring Museum, one of the animals we saw was the Emperor Penguin, they live in Antarctica.

Can you create a fact-file about Emperor Penguins? Find out how tall they are, what they weigh, what they eat and a fact you think would surprise us!

It can get really cold in Antarctica; the average temperature is minus 57°C. Here is a link to some experiments you could try that use ice.

<https://www.science-sparks.com/ice-experiments/>

Do you think people live in Antarctica?

See if you can find out if anyone does live there and if they do, how do they survive when it is so cold.

We have now learnt about all of the seven continents, here is a song to help you remember them. This video calls Australia Oceania but this is because in America they call it that.
