

Wednesday 24th June

I like to buy a new mug, I love coffee and I have different mugs depending on what time of day it is, or which coffee I am drinking. Yesterday we did some work on best friends.

My best friend is called Sarah and we have been friends ever since we started school together. Can you guess where she lives. It is an island not far from England.

English

Try and do all the activities even if you only talk about them with your grown up and don't write them down. It is really important that we keep on challenging ourselves even at home.

Maths
