.....

1. Aims

Our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

2. Legislation and guidance

This policy is based on the Department for Education's statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on [preventing and tackling bullying](#) and [searching, screening and confiscation](#). It also refers to the Department's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

This policy complies with our funding agreement and the Trust articles of association.

3. Roles and responsibilities

3.1 The governing board

The local governing body has overall responsibility for monitoring this policy and holding the Headteacher to account for its implementation.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety and evaluate implementation of this policy with the designated safeguarding lead (DSL).

The governor who oversees online safety is Mr Francis Sanger

All governors will:

- Ensure that they have read and understand this policy
- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (appendix 2)

3.2 The Headteacher

The Headteacher is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The designated safeguarding lead

Details of the school's designated safeguarding lead (DSL) and deputies are set out in our child protection policy.

The DSL/Headteacher takes lead responsibility for online safety in school, in particular:

- Ensuring that staff understand this policy and that it is being implemented consistently throughout the school
- Working with the ICT service provider, Finance and Resources Director and other staff, as necessary, to address any online safety issues or incidents
- Ensuring that any online safety incidents are logged (see appendix 4) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy

- Updating and delivering staff training on online safety (appendix 3 contains a self-audit for staff on online safety training needs)
- Liaising with other agencies and/or external services if necessary
- Providing regular reports on online safety in school to the local governing body

This list is not intended to be exhaustive.

3.4 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (appendix 2), and ensuring that pupils follow the school's terms on acceptable use (appendix 1)
- Working with the Headteacher to ensure that any online safety incidents are logged (see appendix 4) and dealt with appropriately in line with this policy
- Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

This list is not intended to be exhaustive.

3.5 Parents

Parents are expected to:

- Notify a member of staff or the Headteacher of any concerns or queries regarding this policy
- Ensure their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (appendix 1)

Parents can seek further guidance on keeping children safe online from the following organisations and websites:

- What are the issues?, UK Safer Internet Centre: <https://www.saferinternet.org.uk/advice-centre/parents-and-carers/what-are-issues>
- Hot topics, Childnet International: <http://www.childnet.com/parents-and-carers/hot-topics>
- Parent factsheet, Childnet International: <http://www.childnet.com/ufiles/parents-factsheet-09-17.pdf>

3.6 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use (appendix 2).

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum.

In **Key Stage 1**, pupils will be taught to:

- Use technology safely and respectfully, keeping personal information private
- Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies

Pupils in **Key Stage 2** will be taught to:

- Use technology safely, respectfully and responsibly
- Recognise acceptable and unacceptable behaviour
- Identify a range of ways to report concerns about content and contact

Use of the internet to support learning:

- Internet access will be planned to enrich and extend learning activities.
- Staff should guide pupils in on-line activities that will support the learning outcomes planned for the pupils' age and maturity.
- Pupils will be educated in the effective use of the Internet in research, including the skills of knowledge location, retrieval and evaluation.

The safe use of social media and the internet will also be covered in other subjects where relevant.

The school will use opportunities such as assemblies to raise pupils' awareness of the dangers that can be encountered online and may also invite speakers to talk to pupils about this. The national Safer Internet Day will also provide a springboard for whole school learning about safe internet practice.

5. Educating parents about online safety

The school will raise parents' awareness of internet safety in letters or other communications home, and in information via our website. This policy will also be shared with parents.

If parents have any queries or concerns in relation to online safety, these should be raised in the first instance with the Headteacher and/or the deputy DSLs

Concerns or queries about this policy can be raised with any member of staff or the Headteacher.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, for example through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of one person or group by another person or group, where the relationship involves an imbalance of power.

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. This may be in class groups and/or assemblies.

Teaching staff are also encouraged to devise opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for more detail).

The school also sends information/leaflets on cyber-bullying to parents so that they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will:

- Designate a senior member of staff to investigate the incident
- Inform parents/carers of the incident

Incidents may result in the removal of internet/computer access within school for a fixed period

Where illegal, inappropriate or harmful material has been spread among pupils, the school will take all reasonable measures to ensure the incident is contained.

The Headteacher/deputy DSLs will consider whether the incident should be reported to the police if it involves illegal material, and will work with external services if it is deemed necessary to do so.

Any incidents involving members of staff should be immediately reported to the Headteacher who will conduct the Local Authority Designated Officer (LADO) if appropriate

6.3 Examining electronic devices

Pupils are not permitted to bring personal electronic devices into school.

School staff, however, have the specific power under the Education and Inspections Act 2006 (which has been increased by the Education Act 2011) to search for and, if necessary, delete inappropriate images or files on pupils' school internet accounts where they believe there is a 'good reason' to do so.

When deciding whether there is a good reason to examine or erase data or files, staff must reasonably suspect that the data or file in question has been, or could be, used to:

- Cause harm, and/or
- Disrupt teaching, and/or
- Break any of the school rules

If inappropriate material is found, it is up to the staff member in conjunction with the DSL or other member of the senior leadership team to decide whether they should:

- Delete that material, or
- Retain it as evidence (of a criminal offence or a breach of school discipline), and/or
- Report it to the police

7. Acceptable use of the internet in school

All pupils, parents, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (appendices 1 and 2). Visitors will be expected to read and agree to the school's terms on acceptable use if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above.

More information is set out in the acceptable use agreements in appendices 1 and 2.

8. Pupils using mobile devices in school

.Pupils may not bring mobile devices into school.

9. Staff using work devices outside school

Staff members using a work device outside school must not install any unauthorised software on the device and must not use the device in any way which would violate the school's terms of acceptable use, as set out in appendix 2.

Staff must ensure that their work device is secure and password-protected, and that they do not share their password with others. They must take all reasonable steps to ensure the security of their work device when using it outside school. Any USB devices containing data relating to the school must be encrypted- this is to be renewed in line the GDPR.

If staff have any concerns over the security of their device, they must seek advice from the ICT manager.

Work devices must be used solely for work activities.

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, investigation will be conducted by a senior member of staff. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a member of staff misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff disciplinary

procedures. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider, after consultation with the Local Authority Designated Officer (LADO) whether incidents which involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

The DSL /deputies will undertake child protection and safeguarding training, which will include online safety, at least every 2 years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

12. Monitoring arrangements

The Children and Families manager logs safeguarding issues related to online safety. An incident report log can be found in appendix 4.

This policy will be reviewed every two years, subject to government new guidance. At every review, the policy will be shared with the governing board.

13. Links with other policies

This online safety policy is linked to our:

- Child protection
- Behaviour policy
- Staff disciplinary procedures
- Data protection policy and privacy notices
- Complaints procedure

Approved by the Governing Board on 1 May 2018.

Appendix 1: acceptable use agreement (pupils and parents/carers)

Acceptable use of the school's ICT systems and internet: agreement for pupils and parents/carers

Name of pupil:

When using the school's ICT systems and accessing the internet in school, I will not:

- Use them for a non-educational purpose
- Use them without a teacher being present, or without a teacher's permission
- Access any inappropriate websites
- Access social networking sites (unless my teacher has expressly allowed this as part of a learning activity)
- Use chat rooms
- Open any attachments in emails, or follow any links in emails, without first checking with a teacher
- Use any inappropriate language when using the school's ICT system
- Share my password with others or log in to the school's network using someone else's details
- Give my personal information (including my name, address or telephone number) to anyone without the permission of my teacher or parent/carer
- Arrange to meet anyone offline without first consulting my parent/carer, or without adult supervision
- I will not bring a mobile phone or other electronic device into school

I agree that the school will monitor the websites I visit.

I will immediately let a teacher or other member of staff know if I find any material which might upset, distress or harm me or others.

I will always use the school's ICT systems and internet responsibly.

Signed (pupil):

Date:

Parent/carer agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and for using personal electronic devices in school, and will make sure my child understands these.

Signed (parent/carer):

Date:

Appendix 2: acceptable use agreement (staff, governors, volunteers and visitors)

Acceptable use of the school's ICT systems and the internet: agreement for staff, governors, volunteers and visitors

Name:

Role:

When using the school's ICT systems and accessing the internet in school, or outside school on a work device, I will not:

- Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature
- Use them in any way which could harm the school's reputation
- Access social networking sites or chat rooms
- Use any improper language when communicating online, including in emails or other messaging services
- Install any unauthorised software
- Share my password with others or log in to the school's network using someone else's details

I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.

I agree that the school will monitor the websites I visit.

I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.

I will let the designated safeguarding lead (DSL) and/ or Headteacher know if a pupil informs me they have found any material which might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly, and ensure that pupils in my care do so too.

Date:

Appendix 3: online safety training needs – self-audit for staff

Online safety training needs audit	
Name of staff member/volunteer: Role:	Date:
Do you know the name of the person who has lead responsibility for online safety in school?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents?	
Do you regularly change your password for accessing the school's ICT systems?	
Are you familiar with the school's approach to tackling cyber-bullying?	
Are there any areas of online safety in which you would like training/further training? Please record them here.
