

Wednesday 8th July

My favourite flavours are vanilla and strawberry. Do you think I like sauce and sprinkles?

The reason I have chosen to do this is because we have done a lot of things about calculations and this looks at shapes. You can design your 3D model one day and then make it the next. I want you to think about the shapes you are using and talk about them to your grown up. Which shapes are 2D and which ones are 3D in your models?
