

Hello Year 2.

I have been learning about Central and South America, I have learnt the names and capitals of all the countries and have now tried to start learning all the island names that surround the countries. Have you been learning a new skill?

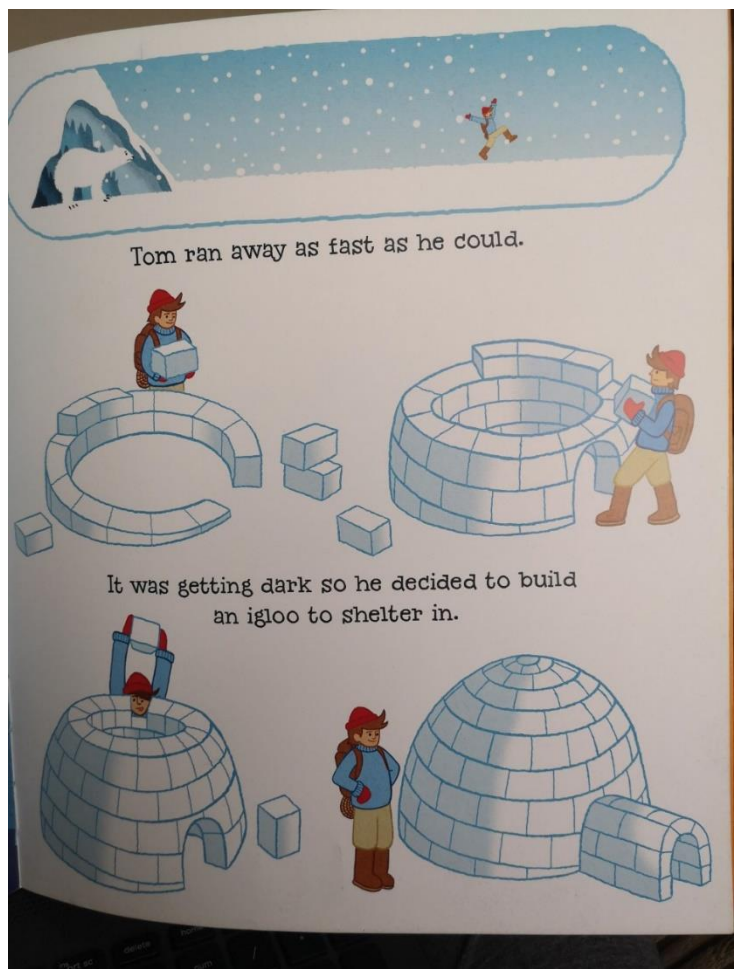

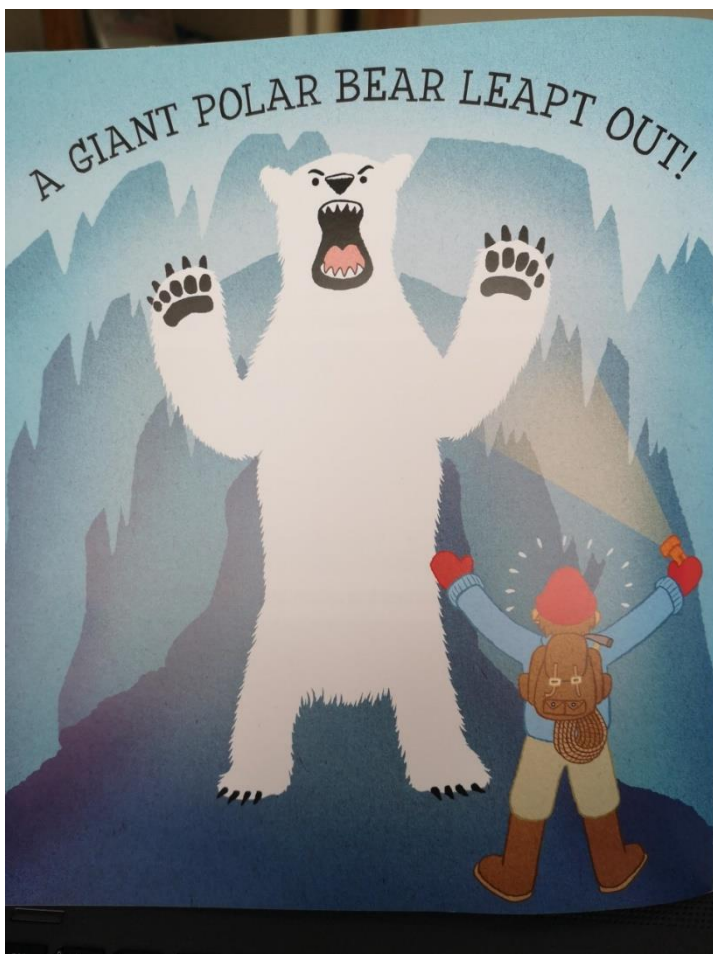

Your answers for the maths from yesterday are on a separate sheet on the website or in your email.

Today in maths we are going to move onto number work by looking at related facts. Please do as little or as much of the activities as you want to as there is quite a lot. The maths activities are on separate sheet to this but the link for today's video is here...

English

Read the next two pages of the story and have a go at today's activity.

Activity

Thank goodness Tom knew how to build an igloo! I would like you to watch this video and do the activity below.

<https://www.youtube.com/watch?v=JkFtYI7YGqI>

I would like you to find out about a group of people called Inuit or 'Inuktitut' which means for 'the people'. Years ago, Inuit people used to make their own igloos as a house, they now use them for fishing.

Either find out information that interests you or answer these questions...

Which country do the Inuit people live?

What language do they speak?

Do Inuit children go to school?

What sort of food do the Inuit people eat?
