

Hello Year 2.

I hope that you had a nice weekend and were able to spend time outside in the lovely sunshine. Did you see or hear any of the VE Day celebrations on television or in your street? I was in school last week and to celebrate VE Day Miss Smith kindly bought in cream tea (this is a cup of tea with a scone, cream and jam) for me and Mrs Stacey. As I'm from Devon, this was nice and made me feel like I was back there. I expect you are missing your family and friends too but hopefully we will all be able to see them soon.

Your answers for the maths on Friday are on a separate sheet on the website or in your email.

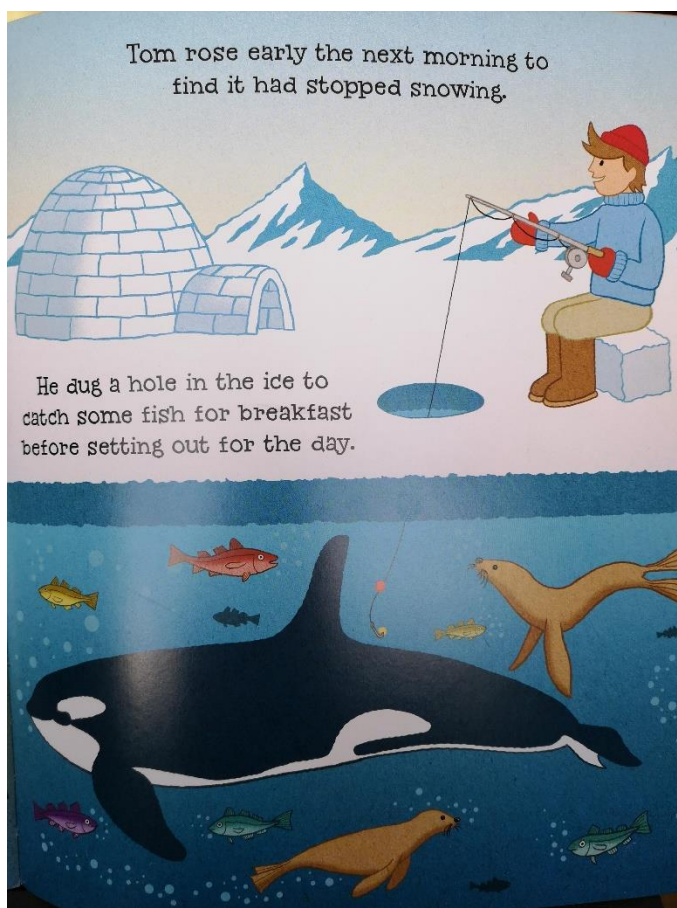

Today in maths we are going to be adding and subtracting 10. Remember that the tens number changes but the ones number does not. Please have a go at number one and two at least today.

The maths activities are on separate sheet to this but the link for today's video is here...

English

Read the next page of the story and have a go at today's activity.

Activity

I hope you have enjoyed learning about Tom and our new book. As you can see in the story, now the snow has stopped it is easier for Tom to do some fishing.

As you can see there are a few different creatures in the water underneath the ice. Some of the children in school asked me where the penguins are in this story, I explained that they don't live in the Arctic (this is another name for the North Pole). They live in Antarctica and other parts of the world.

Your activity today is to find out about one of the large creatures in the picture - either the orca or the seals.

If you are not sure what to find out here are some ideas for you.

Where else in the world do, they live? Which oceans do they live in?

What do they eat?

How long do they live?

Do they have live babies or eggs?

What sort of animal are they? (reptile, mammal, fish, bird, amphibian)
