

Thursday 11th June 2020,

I have really enjoyed seeing photos that you have been sending to the office, Mrs Swaysland told me she's going to try and set up a Year 2 email address so you can send things to that instead of the office. Hopefully this can be done soon so we can use it. As always, please don't worry if you find work tricky, when we do come back to school, we will be going back over everything we need to do. Ellie-Mae asked me what the plant was that you had from Chesham in Bloom earlier this year, I have found out it is called an inchplant.

Maths

We are continuing with fractions today. Again, just look at the first page and have a go. If it is too tricky and you cannot remember how to do fractions have a go at your number bonds to 10 and 20 or your times tables.

Here is the link for the video today.

English

Today I would like you to think about why Scott did not reach the South Pole first as they had hoped to. On the two pages below are 12 reasons that have been put onto numbered cards. I would like you to spend some time looking at them and thinking about which one you think is the right one. As with many activities we do at school there is not always one correct answer. But the important part of your work today is to be able to explain your reason. I do not need you to write your answer but I do need you to explain it to someone in your family.
