

Monday 4th May

May is still Spring, although it has felt a bit more like winter.

Mrs Swaysland and Mrs Dunton have both worn their Christmas jumpers. What have you done to keep warm?

English

Month of the year	Season	Birthdays
January	Winter	Adonijah (my Grandson)

Can you carry on with the table and fill out the months of the year, what season that is and any birthdays that you have in your family or friends in that month.

Maths

Number	Tens	Ones
23	2	3

Can you fill out the table using the ages of the people in your family. Can you also do one for Captain Tom before he had his special birthday?

Challenge

Find some small items in your home that you have lots of, for example, beads, pencils, dry pasta, pieces from a board game or marbles. The items do not all need to be the same.

Count out 10 and put them in a container. Now count out another 10 and put them in a second container. This is what 20, or 2 groups of 10, looks like.

Next, find 3 items and space them out. This is what 3 ones look like.

In total that's 23!

Can you repeat with other numbers
