

Hello Year 2,

I am really pleased to have so many of the class this week, we will be doing a lot of the same work as those of you that are at home.

This week is Arts Week and all the English activities will link to the special week. Arts cover lots of areas including art, design, music, drama, performing and dance.

## Maths

We have a bit of a strange week for Maths, we are finishing measurement and will then be starting time. Today is measuring in litres, remember that there are 1000 millilitres in a litre. Here is the link for the video today...

<https://vimeo.com/434747843>

## English

Today I would like you to complete the tongue twister activity on the Arts Week sheet, the link is also below for you to use...

### Activity 1:

Have a go at some of the tongue twisters, see how quickly you can say them and not make a mistake!

### Activity 2:

Create your own tongue twisters and then get someone in your house to have a go at saying them. Look at the tongue twisters you were reading and see what makes them so twisty. Lots of the words begin with the same letter or repeat some words over and over again.
