

Year 2 Science

Weeks commencing Monday 6th July 2020.

This week I would like you to have a go at some materials games. There are four different activities that you can have a go at.

Activity 1 is for sorting toys and you can sort them however you want to.

Activity 2 is for labelling different materials, once you have finished click on the green check button at the top to see how you did

Activity 3 is for sorting natural and man-made materials, so which things are found and which thing are made by humans.

Below is the link to access the activities but you do not need to print anything off.
