

Hello Year 2,

When I was at school, I was really interested in Ancient Egypt. They used something called hieroglyphics to create messages using picture. Your English lesson today is going to be using this type of communication.

Maths

Today we are continuing with time, now looking at quarter to and quarter past, remember we used these words in fractions, see if you can see the link between them. Here is the link ...

English

I would like you to use the hieroglyphics sheet (separate document on the website/email) to create a short message, then give it to someone at home to see if they can work out what it says.
