

Hello Year 2,

As we get closer to the end of the Summer Term it is always a good time to reflect on what we have achieved this year. As a class, before lockdown, we achieved some great attendance results and I hope that we are able to get 100% in our first week back in September. What have you achieved this school year that you are proud of?

## Maths

As we continue to work on telling the time, it is always good to try and test yourself at different points of the day.

Here is the link for today's maths lessons...

## English

Today I would like you to create a labelled diagram of something to do with your project, here are some good examples to help you.
