

Hello Year 2,

Today is our last day in school for this term and we are saying goodbye to Hannah, Maya.W., Georgie and Ellis. We will miss them very much in the class and we wish them all the best in their new schools. Hopefully we will still see them in Chesham.

Even though there are no children in school tomorrow, it is still a school day so please make sure you read the message from me tomorrow.

### Maths

Today is the last day of time for this year, as it is quite challenging it is important to keep trying to tell the time throughout the day. If you have a clock or watch (not digital), this really helps.

Here is the link for today's maths lessons...

<https://vimeo.com/436535718>

### English

Today is the forth day of your own projects and I would like you to find out about a person that is related to your project and write some information about them. For example if you have been creating a project about dinosaurs you could find out about a paleontologist ( a scientist who studies fossils of dinosaurs) or if your project is about football you could write about your favourite player. Here is an example of my favourite artist Pablo Picasso.

# Pablo Picasso

**Born:** 25 th of October , 1881 in Málaga Spain.
