

Monday 30th April

Hi all,

I do hope that you are all well and that you managed to do something fun this weekend.

English

<https://www.youtube.com/watch?v=HmYqb4mJO7Y> – This is a video clip of someone reading the story ‘Aliens love underpants.’ I did read this story to some of you on World Book Day and some of you may have the book at home.

Last week I sent you a newspaper article to read together. Now I’d like you to write a newspaper article about pants going missing in Chesham. There are some people who say they have seen aliens in their gardens, but there are some people who are angry and think that someone (not aliens) are stealing their pants from the washing line. Remember the article I sent you on Friday was a WAGOLL, so you know what yours should be like.

Success Criteria

- 1) Write in the past tense
- 2) Tell the reader what has happened to pants in Chesham
- 3) Have some quotes from people in Chesham explaining what they think
- 4) Write in sentences with capital letters and full stops
- 5) Vary your sentence starters.

I would love to read some articles when they are finished, so ask someone at home if they can take a photo of your work using their phone and email to the office. Do not worry if this is not possible, I’d just like some things to read.

Maths

Here are the answers for Friday’s questions. Well done for trying your best. Now you can play teachers. Don’t forget if you’ve got them all correct, or just made one mistake then you can give yourself a house point!

- 1) 27 2) 55 3) 97p 4) 87 pupils 5) 128 6) 311 7) 133 8) 10

Now try these ones

1	There are 37 girls and 56 boys in the school. How many children are there?
2	There are 112 people in the swimming pool. 34 leave, how many are left?
3	One bag of sweets has 64 sweets in it, the other 28. How many sweets are there altogether?
4	Some children share 56 strawberries. Each child gets 8 strawberries. How many children are there?
5	There are 89 children, 45 are girls. How many boys are there?
6	Tulips are sold in bunches of 9. Randle buys 81 tulips. How many bunches does he buy?
7	There are 67 cabbages. The slugs eat 56. How many are there now?
8	Harry plants 15 trees in rows of 4. How many trees does he plant?
9	A large bag of frozen chips costs 34p. How much do 3 large bags cost?
10	If I have 64 balls and 21 of them are rugby balls, 18 are tennis balls the rest are footballs. How many footballs are there?

Other activity ideas:

- Make a board game and play it together as a family
- Learn the rhyme about the days in each month..

30 Days Has September

30 days has September,
April, June and November.
All the rest have 31,
Excepting February alone,
Which only has 28 days clear,
And 29 in each leap year.
