

Wednesday 22nd April

Hello everyone,

How did you get on with the English and Maths videos yesterday? Those of you I spoke to all managed well, so I will use some of them again another time. I hope you all manage to get some time playing outside or going for a short walk as the weather has been so good.

Maths

Yesterday your work was based on the part, part, whole method. Today we are using White Rose maths which is familiar to you all as we use these in class together. The difference is you have a video clip to watch first and discuss together before having a go at the worksheet. Please don't worry about not having a printed version. You can use your blue book or other paper you have. Just write the title of the sheet and the question number. Some questions don't need an answer to be written, you can discuss it together. Parents, this work is consolidating that every whole is made up of parts (fractions) that have the same value e.g. $\frac{1}{4} + \frac{3}{4} = 1$ whole. If you have 10 apples and 1 is green then $\frac{1}{10}$ is green, the other $\frac{9}{10}$ are red. You may need to draw some bars to help you child see this concept. Let me know in our phone calls if you need help.

Click the link below to go to the White Rose site. The lesson we want is Week 1, Lesson 2 – Making the Whole.

<https://whiterosemaths.com/homelearning/year-3/>

The worksheet had been sent to you separately.

English

Practise your spellings set yesterday. Maybe you could write some into sentences or say them in a sentence. How many can you squeeze into one sentence? Remember the sentence still must make sense!

Last lesson we recapped nouns and today we are learning about pronouns. Follow the link below where there are clips, quizzes and suggested Twinkl activities to do.

Wellbeing

As we are part of the Year 3 and Ivingswood Academy team who cannot be together at the moment, I think we should remind ourselves how important being a member of a team is. Click the link below and watch the clip all about children belonging in teams. There is a suggested Twinkl activity if you'd like to complete that or maybe your parents could set you and your siblings a group challenge!
