

Wednesday 10th June

As today is Wednesday, you should receive the Geography and Science learning alongside this English and maths. Today we are learning about the environment in Geography and Monday was World Ocean Day. I like being by the seaside, walking in the sand and feeling the cold sea with my toes. I am looking forward to hopefully visiting a beach in the UK during the summer break. If you enjoy learning about oceans you can maybe watch a Blue Planet episode as they are available on BBC iPlayer.

English

Last week, we learnt what a fronted adverbial was and how to spot them. We are continuing this learning today and practising writing them.

In class, the boy sat listening to his teacher.

The fronted adverbial in this sentence is '**In class**' because it tells the reader where the boy is. In the activity below, please match the fronted adverbial with the correct sentence to explain where it happens.

In a forest,

Below the waves,

Behind the counter,

In the park,

On the table,

On a rock,

the fish swam quickly.

Jack went on the swings.

Sarah placed her book and pen.

the monkeys swung through the trees.

the mermaid watched ships passing.

the shopkeeper stood serving customers.

Challenge!

Add a fronted adverbial to each of these sentences to explain where they might happen.

1. _____, Emma ate delicious ice cream.
2. _____, the lion loudly roared.
3. _____, the car beeped its horn.

Maths

We are continuing our maths learning using the White Rose videos and work guides. This week we are learning from Summer Term – Week 6 – (WC 1st June) and our lesson today is Lesson 2 'Fractions on a number line.' Click the link below to find the learning clip and the work has been sent separately.
