Activity One Quiz time

Find the quiz on the BBC Bitesize page.

Activity Two

Label the volcano

Keyword	Definition
Magma chamber	Large underground pool of magma
Lava	Magma, once it reaches the surface
Crater	Bowl-shaped basin in the top of the volcano
Vent	Central tube that magma travels through
Secondary cones	Eruptions from other vents may build up secondary cones on the flanks
Ash, steam and gas	Material thrown out by the volcano
Volcanic bombs	Larger material thrown out by the force of eruption
