

Friday 17th July

This is our last day of home learning. This means that you are starting the summer holidays. I wonder what you will be able to do when I next see you in September, that you cannot do already. Will it be: tell the time? Tie your shoelaces? Plait your hair? Join your handwriting neatly? I am looking forward to some time with my children when I do not have to remind them to do their schoolwork, and I am looking forward to some walks, bike rides and picnics.

Whilst you are at home over the summer break, remember that you are all amazing. You have coped well during this strange time apart, but I am really, really, really, really, really, really, really looking forward to having us all back together again in school in September. Do not worry about what you think everyone else has done. Do not worry if you have not completed all the set tasks. Just make sure that when you return to class, you are ready to start learning again. I am so excited to see you all again. Be good for the grown-ups at home and remember you can always work on your handwriting, times-tables and reading whenever you wish. I bet your handwriting and times-tables have improved so much – I might not recognise the writing!

English

Writing instructions is the focus of our learning today. We know that sometime instructions are tricky to follow. Why is that? Is it because the instructions are unclear? What makes a great set of instructions? Follow this learning link to find out. <https://www.bbc.co.uk/bitesize/articles/zxgvtrd>

Maths

Today we are learning how to compare different capacities and this builds on our learning from yesterday. You may need to use the <> or = symbols – can you remember what they mean? Follow the link to find the clips, activities and games to play. <https://www.bbc.co.uk/bitesize/articles/zrcy6g8>
