

Year 4 Tuesday 28th April 2020

Hi everyone,

I hope you got on ok with Monday's work - the answers should be going up for you to check against today.

Here is the work for Tuesday, remember to use the web links to look at the videos and take the quizzes first, before you have a go at the activity sheets. The videos and tutorials on the website will help you to understand what you are being asked to do.

Looking forward to speaking to you all again soon,

Miss Smith

Maths

Here is the link to the website for this week's learning:

<https://whiterosemaths.com/homelearning/year-4/>

I have downloaded the activity sheets and answer sheets for you, so they should be attached to the email you receive, however if that doesn't work you can also download them from our school website, or straight from the White Rose website via the link above.

1. Monday - rounding decimals
2. Tuesday - halves and quarters
3. Wednesday - pounds and pence
4. Thursday - ordering money
5. Friday - surprise challenge!

In Tuesday's activity sheet they use something called a Rekenrek, which we've not used at school. It works a bit like an abacus, and you can see a video on the basics of how they work here:

https://www.google.com/search?q=rekenrek&rlz=1C1SQL_enGB893GB894&oq=rekenrek&aqs=chrome..69i57j0j46j0l5.2746j0j7&sourceid=chrome&ie=UTF-8#kpvalbx=VsmmXuC5D5LnXgOevIDgBw92

Just remember to count out how many have been separated, and what proportion of the whole do those separated balls represent?

Good luck!
